**STATEMENT IN SUPPORT OF PETITION TO
CORRECT INVENTORSHIP UNDER 37 C.F.R. 1.48(a)**

I, Charles Kerins, state that:

1. An error in inventorship exists in the above-identified patent application. Mr. Mundt, who I understand use to be employed by Merck & Co., was originally listed as the sole inventor when this patent application was filed. That is incorrect because I along with Martin Hulick, Stephen Hamaday, Deborah McQuiston and Mr. Mundt jointly invented the subject matter claimed.
2. The error arose because the above-identified application was originally filed without my knowledge. When this application was originally filed, I was employed by the company that is now known as Sharp Corporation. I understand that another company Merck & Co., Inc. originally filed the patent application. After the patent application had been filed, Merck & Co., contacted Sharp through our attorneys Woodcock Washburn LLP to determine if anyone from Sharp was an inventor based on some joint work by Sharp and Merck. I have reviewed the pending claims and the patent application and determined that I along with Mr. Mundt, Martin Hulick, Stephen Hamaday and Deborah McQuiston are joint inventors of the subject matter that is being claimed.
3. I understand that, to correct this error in inventorship, I am being added as an inventor.
4. This error in inventorship occurred without deceptive intention on my part. In fact, I was not even aware of the application until after it had been filed.

Not to be Returned

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this statement is directed.
